

PRODUCT ADVANTAGES

- ▲ Allows working in complete safety on a wide range of vertical structures : ladders, pylons, wind turbines, roof access, ...
- ▲ Automatic engagement of the carriage with the cable, even when wearing gloves
- ▲ Continuous guidance of the cable: the operator does not have to replace the cable in the guide supports after use
- ▲ Includes a tension control device
- ▲ Energy absorber at the top, reusable after loading.
- ▲ Made entirely of stainless steel

BLOCKING MOBILE CARRIAGE

The CMB carriage allows going through the intermediate supports at a distance. The carriage ensures a unidirectional blocking.

The connection of the carriage can be done at any point on the cable.

Certified EN 353-2 without textile shockabsorber.

Automatic engagement on the cable at the bottom part without removing the karabiner.

CMB

COMPONENTS VERTILIGNE®

Upper part

Crimped upper part. Its elastomer component contributes to energy absorption.

EVH2

PHR

Mobile intermediate piece

Gives freedom of movement when travelling. Delivered with 3 sizes of staples to adapt to the ladder tread.

IMV

Extension piece

Attaches to the top of the ladder. Facilitates passage of the ladder operator onto the roof.

Fixed intermediate piece

Delivered with 3 sizes of staples to adapt to the ladder tread.

IFV

SVH

Top fixing support

Allows the fixing on top of the ladders. Compatible with different types of ladder uprights.

Cable

8mm , 7x7 stainless steel cable. VERTIC Bolduc incorporated in the core of the cable for better traceability.

CI8

SHL4

Bottom fixing support

Adjustable support for bottom fixing. Compatible with several sizes of uprights.

Lower part

Pretensions the cable and enables rapid attachment of the carriage at the bottom of the system.

EVB3

SHL1

Tubular mast fixings

Standard parts usable as top or bottom parts. Adjustable model to suit the diameter of the mast.

Safety sign

Must be installed at the access of the system. Allows the identification and the control of the system.

PS.V

BAG01 / ESC8

Cable-locking piece

Permits curves and direction changes. Available in removable or crimped versions.
